DEATH STILL MYSTERY

The republican leaders who are making IDENTITY OF MURDERED JER-SEY WOMAN UNREVEALED.

> NEWARK, N. J., December 30 .- Although hundreds of persons have viewed the body of the young woman who was Harrison Christmas night, her identity has not yet been determined positively. Nor, so far as can be learned, has any definite progress been made by the police in their effort to apprehend the per son or persons responsible for the

woman's death. Two men who were taken into custody immediately after the body was found, are still under restraint, but they are held merely as suspicious persons, and no direct charges in connection with the death have been made against them. Practically every effort of the officials engaged upon the case is now being exertd toward identification of the body ing accomplished that they feel that they then would have something tangible to work upon. In the present condition. with no known motive for the crime and with no knowledge whatever of the habits or associates of the woman, they con-fess to be completely at sea.

LAST WEEK OF TRIAL

ARGUMENTS BEGUN IN CALEB POWERS' CASE TODAY.

Special Dispatch to The Star.

LEXINGTON, Ky., December 30 .- The eighth and last week of the Caleb Powers trial opened at Georgetown this morning, with an immense crowd in attendance to hear the arguments of the attorneys before the jury. Samuel M. Wilson of this city opened the argument shortly after 9 o'clock, and made a masterly defense of Powers. Guilt had not been proved in any way, nor had his connection with a conspiracy been shown, even in the remotest sense. He spoke of Powers' long confinement, which he denounced as most unjust, and demanded an acquittal for his client. Wilson attacked the various star witnesses for the prosecution, showing up the weak spots in the stories told by Holden, Noakes and Youtsey. The latter came in for a severe denunciation.

Judge Benjamin G. Williams will fol-ow Wilson for the prosecution, and next will come Judge J. C. Sims, chief counsel for the defense. Victor Bradley will then argue for the prosecution, followed by Maj. W. C. Owens for the defense. State's Attorney Robert B. Franklin will close for the prosecution, and the jury will begin its deliberations by Wednesday afternoon or Thursday morning. Powers' mother, Mrs. Elizabeth Pow-

ers, and his sister, Mrs. Rosa Green, occupy seats near the defendant.

Predictions of a hung jury are freely made, and it is declared that the prosecution would be pleased with such an butcome. The defense expects an aquittal. It is alleged that odds of ten to two that an acquittal will result were re-

BERLIN, December 30 .- The name of Princess Charlotte von Saxe-Meiningen the eldest sister of Emperor William, was brought into the Harden-von Moltke libel case today, as the person who had supplied Maximilien Harden with the information concerning the Zu Eulenburg "group" near the person of the emperor upon which Harden based his campaign against the so-called camarilla. Harden had two meetings with the princess, seemingly at her request. Prof. Schweininger, who was present at these interviews, gave a brief account of them in a deposition. Gen. Count von Wilhelm von Hohenau was mentioned at these meetings, but no reference was made to Count Kuno vor

Princess Charlotte and the emperor have been on cool terms for several years. The late Prince Bernard, husband of the princess, was long opposed to the influence of Prince Philip Zu Eulenburg at court. It is apparent that the princess did not forget this feud, and that she has been instrumental in ruining Zu Eulenburg's reputation and his consequent loss of favor with the emperor.

When the court which is hearing the Harden-von Moltke libel suit reassembled today Harden appeared to be very weak, while Count Kuno von Moltke was exceedings cheerful and keenly interested in the proceedings.

The evidence of Prof. Schweninger, who was physician to the late Prince von Bisfessor declared that he had no ill feeling against von Moltke, in spite of coolness existing between the count and Mrs. Schweninger. Harden, the professor set forth, had met the hereditary Princess of Saxe-Meiningen twice in his presence in the course of visits to Schweneck. On and expressed her sorrow that "such degeneracy should occur in high circles." Prof. Schweninger deposed that he was very much astonished when, following the appearance of the articles in Die Zukunft, the excitement against Harden broke out. He could not understand the reason, as the articles were not intended to have a

personal, but only a political significance. Bismarck's Friend.

Prof. Schweninger, who is now fiftyseven years old, was for twenty-five years a notable figure in Germany because of his intimacy with Prince von Bismarck. This began when Schweninger w s about twenty years old. The young man be-came Bismarck's physician for his gout, and this led to confidential and personal relations, which made Schwening:r a po-litical personage until the old chancellor died. Since this time the professor has quietly followed his professional duties at the University of Berlin. The reap-pearance of Schweninger recalls to the German public the days when he was reputed to be one of Bismarck's most

able advisers. Continuing, Prof. Schweninger says he considered Mrs. von Elbe, the divorced wife of Count von Moltke, to Le mentally sound and not likely to suffer illusions been denied entrance into the state of He consequently believed her riginal as-Mississippi. Continuing, the professor said he had himself related to Harden Bismarck's opinion of Zu Eulenberg, whose tendencies, the prince considered, unfitted him to act as confidential adviser to the em-peror. He could not say whence B smarck had acquired this knowledge. The chan-ceilor expressed the opinion also that a certain imperial adjutant, whose name was not mentioned, had more influence upon the decisions of the emperor than had the chancellor himself. Bismarck declared in this connection, according to Prof. Schweninger, that if the members of the camarilla were so foolish as to permit their influence to be suspected the camarilla would immediately cease to
